Easy Handling

The GoodsMan T is a world unique machine for collecting smaller pallets not just from the ground but also off another pallet allowing fast and efficient goods moving so shifting anything from a van to your door, around your premises and really comes into its own over distances of grass, gravel and slopes.

Sharing the same attributes as the GoodsMan 350 but benefiting mini fork-lift tines that are both height and width adjustable but also can be swapped for a drop on toe-plate

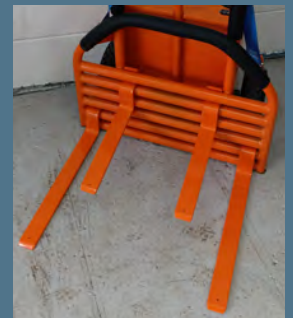

Fast and efficient so saving time and providing a cost-efficient solution yet reducing risk of damage to goods and people.

With a capacity of up to 350kg and where heavier loads are required to be moved, then a sprung loaded footrest can be added.

Simply put; it's safe, easy to use, versatile and robust.

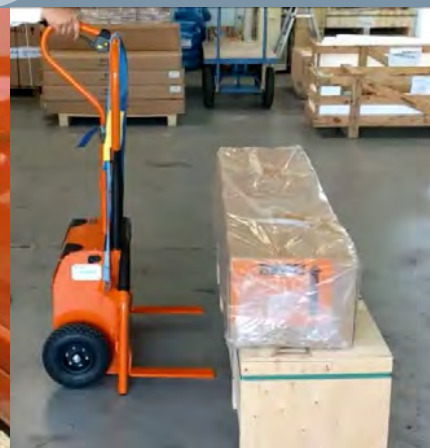

This model includes rubber frame protection but does come with a security strap that can be fitted at two different heights.

- Ergonomically designed tillerlever is easy to use - even in your gloves
- Forward and reverse drive
- 2 speed operation for safe and easy transit over even the roughest terrains
- Torque assisted movement to transit position
- Weatherproof
- Battery charge monitor
- Right and left handed drive
- Lightweight
- 1 year return to base limited warranty
